of the Asian American community.*

MISSION AND VISION

Background:

The Asian American Association for Human Services (AAAHS) Inc. was found in May of 1993. Realizing there was no one Asian American Association representing Asian Americans in the state, AAAHS was launched to provide human services and to present a united front for the Asian Americans in the state.

The original founders of the association included four Asian Americans: Fred Andes, DSW, Josephine Rago-Adia MSW, Antony Stephen Ph.D. and Mary Ann Wong MSW. Mary Ann Wong was its first Executive Director followed by Dr. Fred Andes. Since 1998, Dr. Antony Stephen is its Executive Director.

AAAHS is a not for profit, 501 (c) (3) tax-exempt association. Any contribution to the association is tax deductible.

Now AAAHS is not only recognized and known in the state but also in the nation.

Mission:

The mission of the association is to provide unmet and needed human services to the Asian American community in the state. To achieve this, the following objectives are proposed:

- To organize statewide forums, health fairs and conferences to promote Asian American community's quality of life.
- To eliminate disparity and inequality in health care
- To advocate for the empowerment of Asian American community
- To provide individual, group and family counseling for health, mental health, substance abuse, domestic violence and acculturation issues
- To offer technical assistance and training to promote a clear understanding of Asian cultures
- To provide community and professional education on health, mental health, substance abuse and other related issues among Asian Americans
- To disseminate relevant, state of the art information on Asian Americans and related concerns
- To provide consultation to groups and organizations regarding Asian Americans health, mental health and substance abuse problems and cultural implications for prevention and treatment
- To conduct needs assessment and research for the development of responsive programs
- To make appropriate referrals and linkages to community services
- To enter into collaborative partnership agreements with state, local and other Asian American agencies in the undertaking of joint health and human service ventures.

Vision:

The vision of the association is to establish a Center for Wellness and Health with interdisciplinary professional staff to address the developmental and psychosocial needs of the Asian American community from infancy to old age. Furthermore, the vision also includes the expansion of the association in the neighboring states so that the emerging human service needs of the Asian American community may be adequately met. _____

The vision of the association is to unite resources, knowledge, power, and wisdom of all Asian Americans in order to build a common platform for all Asian Americans. This platform will serve as a place for all to come together and exchange ideas, develop & execute programs for humanitarian betterment of the Asian community in America and increase understanding and awareness about each others culture in present and future generations to develop harmony and unity among all Asian Americans. _____
